| <p>Performs and manages intelligence operations and applications activities. Programs, plans, and evaluates operations and applications resources and activities. Establishes priorities. Conducts and manages collection functions. Oversees collection and exploitation activities of all sources of intelligence information. Manages production, processing, and dissemination of products. Develops, validates, and prioritizes targeting and (GI &amp; S) activities and procedures. Determines unit requirements and tailors intelligence support to missions, equipment, and employment tactics. Establishes, recommends, and disseminates information and intelligence collection requirements. Supports combat operations. Performs and oversees analysis and fusion of collected intelligence, and produces assessments to meet operational requirements. Analyzes data to advise planners of options to accomplish objectives. Evaluates mission accomplishment to determine remaining adversary capability and requirements for retargeting. Coordinates intelligence estimates and analytical activities. Assists in operational employment planning. Coordinates inputs to intelligence operations plans and orders. Advises commanders on threat systems deployment, employment, tactics and capabilities, and vulnerabilities. Provides intelligence support and assists in planning and execution of warfare. Exchanges and collects intelligence with other services, agencies, and governments. Conducts operations and related activities. Manages and integrates collected intelligence information. Integrates intelligence into information operations. Manages collection requirements by validating, prioritizing, and coordinating user requests. Ensures operational needs are met through collection system tasking. Supports weapon system acquisition and force structure planning. Develops intelligence policies</p> |                 |                         |                        |

and plans. Evaluates impact of legislative action, executive orders, regulations, directives, and management decisions. Integrates intelligence activities into plans and programs. Develops and implements intelligence operations and applications policies, plans, concepts, systems, and orders, including GI & S, signal, imagery, and measurement and signature types of intelligence. Manages and coordinates intelligence activities. Reports aspects of operations and applications functions and responsibilities. Confers with government, business, professional, scientific, and other nations' organizations to provide support, exchange ideas, participate in studies, and coordinate on proposals and findings. Coordinates with personnel, materiel, planning, programming, and operational functions on allocation of resources, availability of funds, and preparation and implementation of operational plans. Directs intelligence activities. Directs operations and applications activities and organizations, and establishes goals and objectives. Reviews requirements for objectives and relative priorities. Serves as senior intelligence advisor to commander. Directs preparation of intelligence budget estimates and financial plans. Implements standardization, evaluation, and training programs, and monitors compliance.

### GENERAL EXPERIENCE

Knowledge is mandatory of: means, methods, sources, and techniques used in intelligence operations, applications functions, and doctrine to include: collection, exploitation, production, and dissemination of foreign military threat information derived from human, signals, imagery, and measurement and signature intelligence; theories, principles, and application of the electromagnetic spectrum and United States and foreign systems and operating parameters; applications of intelligence information to support military operations; target materials, analysis, and weaponeering; mission planning, force application and combat assessment; force protection; information warfare operations, associated countermeasures, threats, and vulnerabilities; and survival, evasion, resistance, escape, combat search and rescue, and Code of Conduct techniques and procedures. Additionally, knowledge is mandatory of: means, methods, sources, and techniques used in United States and allied military capabilities, organization, operations, and doctrine; intelligence systems and intelligence force management; national intelligence community structure and relationships; intelligence oversight; foreign military capability, limitations, and employment techniques; fusion, analysis, processing, and proper handling of intelligence information; analytical methods, forecasting, and estimating techniques; intelligence information handling systems; national and DoD regulatory guidance for conducting intelligence activities; and management sustaining functions such as intelligence communications and information systems, security, manpower, personnel, and training.
